- Non-latex band offers a tight fit without any pressure points
- Designed for prolonged use

Description

Product Details

- Lightweight, comfortable disposable face shield that provides full-face protection against body fluids
- Anti-fog coating eliminates manual condensation removal and allows superior optical clarity at all times
- Non-latex band offers a tight fit without any pressure points

- Designed for prolonged use

iShield™ is a lightweight and fog-resistant disposable face shield that provides full-face protection against sprays, splashes, and spatter of body fluids. Vented sponge cushion absorbs sweat and increases breathability without sacrificing any protection.

Hypoallergenic non-latex band provides even pressure and eliminates stress points, allowing maximum user comfort during prolonged wear.
